The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 14 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamazaki (JP# 11-249449).

Yamazaki teach an image forming apparatus for forming a plurality of color images, transferring them to an intermediate transfer belt B1 and finally transferring them to a recording sheet. The image forming apparatus has a photoconductive drum 10 on which latent images are formed and a plurality of developing devices 20K, 20M, 20C, 20Y for forming toner images onto the photoconductive drum wherein the developed toner images are transferred to the intermediate transfer belt. The intermediate transfer belt B1 has a seam S which includes an opaque 1b and transparent 1a section. A photo-detector position sensor 41a, 41b detects the seam S in the transfer belt to determine the position of the belt and for determining when image forming processes (such as latent image formation) should begin. The opaque and transparent portions of the seam are considered applicant's "error prevention section" which would prevent misregistration errors. A detected pattern (i.e. blocked photo-detector light / transmitted photo-detector light)

will be a signal to determine the position of the belt. See paragraphs 27-30 of translation.

2. Claims 1-2,4-13,15 are allowable over the prior art of record.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
